#### The News.

We leave from Washington that Sanator Donoras is still confined to his house by sickness, but hopes soon to resume his place and labors in the Senate. Far from being cowed by the threats of the Administration, the "Little Giant" proclaims his determination to fight the Lecomb. ton Villainy to the last. Senator Davis, of Mississippi continues quite ili, and fears are entertained that he will lose his eye-sight. Another steamer from California brings over

million and a quarter in gold, a large number of presengers, and San Francisco dates to the 20th February. The general news will be found in the telegraph column. We have later, though unimportant news from

Utah. The troops were getting on comfortably in their winter quarters, and impatiently awaiting Spring and marching orders. An arrival from Havana reports the landing of

two small cargoes of fugitive slaves, 41 in all, at Nassau. They escaped from Florida. We have interesting intelligence from Kansa this morning. The Lecompton Swindle, Instead

of being the voice of the puople of the territory, makes a very slim show ladeed. A steambout collision occurred on the Ohio river, opposite Raleigh, Ky., on Sunday, result-

ing in the death of five persons. A vory animated election took place in ou city, yesterday, for officers of the Fire Department. The proceedings will be found elsewhere, Our Lake, Harbor and River are now entirely free from ice, and there is nothing in the way of

the immediate resumption of navigation. The New York produce market, yesterday, was flem and buoyant, with large sales at Improving rates. The money market continues very many. Our own market was quite active yesterday, and Club Wheat again advanced 1s2 cents: choice milling lots salling up to 67 cents, the highest figure yet reached this year.

The weather, yesterday, was delightfully warm and pleasant, and the breath of Spring came woolugly upon the TV estern breeze.

NATIONAL MUSTER OF FIREMEN. -- It is said that a number of influential individuals are inter. esting themselves in the subscription of a sum of \$10,000, which they design, with the approbation of the parties interested, in authority and otherwise, to offer as prizes to whatever fire company in the United States should throw a stream the highest, drafting and throwing through 400 feet of hose, and using nextles as they should choose -the competition to come off on Boston Common in August or Suptember next, as might be agreed upon; also to hose companies for running a half mile, and unreeling five hundred feet o, hose in the shortest time. It is proposed to clas. sity the engines .-- The first class to be engines with cylinders novem inches in diameter and upwards; the second class to consist of these with cylladors six inches in diameter; and the own towns, or immediate localities, as many mon as they choose to work their engines, &c. The prize for excellence in the first class is \$2,000; for the second class, \$1,500; and for the third class, \$1,000. These prizes include \$6,000, and the remaining \$4,000 are to be devoted to the payment of Incidental expenses of competitors from a distance. It is designed that the competition shall last three days.

A BRACK OF KANSAS STORIES .- The D. moeratic' papers have circulated the story that Stofor a pro slavery man at Wyandotte, was murdered by a secret association of free State men. The truth is, as we learn from the Crusa der of Freedom, that he was a licentious scoundrol and was shot by the husband of a woman he had wronged.

It was also reported by telegraph on authority of the St. Louis Republican that Judge Mandy, one of the Delaware Crossing Judges of election had been killed to prevent his testliving to the frauds there. The truth is, he accidentally shot bimself while dismounting from a horse, gun in

A PRO-SLAVERY ORGAN WITHDRAWN .- The St. Louis Leader, a must virulent slavery propa ganist journal, has closed its political existence and will bearafter be issued by new parties as an independent paper. We understand that the lag, is composed of good sound men. The ob-Leader has been a losing concern from the begin

ALLSOP ESUAPED TO AMERICA.-The English papers state that Col. Thomas Allsop, charged with complicity in the late attempt on the life of the Emperor Louis Napolcon, had 'escaped to America about the time of the sailing of the steamer America. The Metropollian Police Commissioners of London have issued a description and a reward of £200 for the apprehension of the accused. He is said to be concealed in New York.

THE SEMINOLES.-Colonel Rodgers of the Virginia mounted volunteers, who has recently passed through the country of the Seminole Indians, expresses his belief that hostilities on their patr will spon coase, and that they will peaceably remove to the lands assigned to them in the five cents.

RAILWAYS AND BRIGANDS-IS THIS THE FIF-TERTH CENTURY?-A railroad, not more than nine miles in length, connects Rome with Frasanno miles in largeth, connects Rome with Frascati. On the 28ch uit an unusually large number of passengers, chiefly of the better class, had taken the train for the latter place; a ciucumstance, it appears, which the bandits of the neighborhood were well aware of, for in the interval they surprised one of the signal more on the most deserted spot on the line and then heisted a red flag as a signal of danger. The engine driver, on approaching, saw the signal, and stopped the train; immediately two man sprang upon him, and secured im, while their confederations leisurely opened the doors of the railway carriages, and ritled the pockets of all within, without the slightest opposition. After this operation the train was allowed to continue its route.

One day last week Lola Montez paid a visit to Mrs. Cunningham, at her residence in Twenty-ninth street, and had a long conversation with her upon the subject of the murder of Dr. Bur-dell. Mrs. C. on this occasion, renewed har protestations of innouence, and informed Lela that if over the truth came out, it would be found that the real murderer was a cortain person hose name has been figuring quite largely of

The Charter Election—A Clean Sweep Demanded.

Mr. Enton:—Being an old resident taxpayer and compelled, with others, to carry my share of the burden imposed upon our citizens by unwise and corrupt legislation on the part of our City Fathers, I naturally feel a deep interest in the approaching municipal election, that men arge outs, will be charged by the squarefor each inserof the right stamp should be elected to office.

It appears to be admitted by all parties that a sadical change is necessary in the management of our city affairs. A reformation, a thorough cleansing out of every department of our City Government, from the present Chief Magistrate down to the lowest official, is demanded by public coinion, with one honorable exception and that is the Treasurer. With the present head of that department the great mass of our citizons are satisfied. At any rate, I believe him to possess the requisite qualifications to a successful discharge of his responsible duties; that is, he is capable and he is honest, having been fully tried, and I, for one, am not disposed to give up a certainty for an uncertainty. But, with the above exception, I am ready and willing to co-operate with my fellow-citizens in any plan or measure, that may be devised, to remove cur

present city officials, thereby also removing the disgrace hanging over our dishonered and almost bankrupt city. Let our well meaning, right thinking citizens, without regard to party, unite in securing the services of honest and capable men for office; lot them attend the primary meetings, take an active part in the selection of delegates to our City Convention, and in the selection of Aldermen in the different wards; and after you have secured the nomination of honest and capable men, see that they are triumphantly elected, and my word for it, the credit of our city, now ruined at home and abroad, will be restored to what it was once in times past. Our city boads will not be hawked about, a drug at fifty and sixty cents on the dollar, but command par, if not a premium. Let one and all, therefore, discard politics in the coming contest, and select men without regard to their political affinities, having an eye single to the best interests and good name of Milwaukee,

MILWAUKER, March 10th, 1858.

VIOTOR.

Candidate for Mayor. Massas. Epirons:-I notice that the Atlas of Saturday morning, is out in favor of the nominstion of Wm. A. PRENTISS, Esq., for Mayor. I am glad to see a move of this kind, emanating from the source in which it has-from a German paper, advocating the views and wishes of a large portion of the German Tex-payers of this city, and odvocating Reform in our City Government. No better man could be put in nomication. He is well qualified; of undoubted integcity and bonesty, and possesses every qualification necessary and requisite to be the Chief Ma-

gistrate of our large and growing city, Let ble be put in nomination, not as the representative of any party, or clique, but as the nominee of THE PROPER, and I pledge you he will receive the co-operation and support of the largest portion of the German Tax-payers and | turbance already noticed, every thing passed off oilizons of this city.

SECOND MEETING AT ALBANY HALL .- Another neeting was held at Albany Hall, on Saturday evening, in reference to the proposed Amendments to the City Charter. It was called by those opposed to the action of the meeting on third class to comprise all engines with cylinders | Thursday night. Gon, Painz presided, assisted under six inches in diameter. Each company by Messre. L. W. KENNEDY, CEAS. E. JERKINS ere to have the privilege of selecting from their and others. Alderman HADLEY, Messre. S. M. BOOTH, E. MCGARRY, J. ROSEBROK, M. SCHOEF-FLER and others, addressed the meeting. It scemed to be conceded on all hands, that the Charter sadly needed amendment, though strong objection was made to the manner in which the proposed amondments had been got up. The

following, among other resolutions, were adopted: Resolved, That this meeting coincides with the tax-payers mosting in the opinion that the present clay charter has grave defects, and needs amending, but we lasks that only amendments proposing a vital change in our organic law, should be published and submitted to the conideration and judgment of the people.

Resolved, That without expressing any opin-

Resolved. That without expressing any opinion upon the amendments proposed by the Taxi-Payers Committee, because we have not read them, we insist that before we are asked to accept, amend or reject them, they should be published in all the papers in the city.

Resolved. That William Pitt Lynde, Byron Paine, A. R. R. Butler, Chas. E. Wunderly, and Richard Houghton, be a committee to examine the amendments proposed by the Tax-Payers Committee, with power to alter, amend, or make such suggestions in regard to these amendments as they may down proper, and report at an ad-

Fire Department Election. The annual election for Chief and Assistant Engineers and Fire Wardens, came off yesterday afternoon, at the House of No 1, on Main street.

The day was fine and the Firemen were out in full force. Of the 599 members on the roll of the Department, 549 voted at the election. The Polls were opened at 1 o'clock, the Clerk of the Common Council, Mr. LYNCE, being in attendance with the official list of those entitled to vote, and Mesers. Rufus King and C. Parusers, act. 18, K. to K. S. ing as Tellers. Each Company voted in turn, and as the names were called by the several Se-

cretaries. The polls being closed, the Tellers proceeded to canvass the votes and at 4 P. M. declared the following as the result of the ballot:

For DANIEL SCHLLTZ, . . 824 For J. S. FILLMORE, . . 215 Scattering, 6 Majority for Schultz over Fillmore 109, and

over all 108. The announcement was received with great cheering, which was renewed upon Mr. Fill-MORE'S moving to make the election of Mr. Sonoltz unanimous,

A bullot was next taken for First Assistant Engineer, and while this was in progress, a small | this office. "An honest man," etc. fight occurred between some of the Members of Nos. 6, 3 4, and 5, which threatened for a moment to become serious. Happily, the prompt inter ference of the Police, and the energetic efforts of the Chief and Assistant Engineers and the different Foremen quickly stopped the row, and the storm blew over as suddenly as it came up. The result of the ballot for First Assistant Engi

neer was as follows: O. M. Hofford, . . . 288 PRILIP DALY, 104 FRANK DAYLIN, Horrond over all 146. On motion, a ballot for Second Assistant was

dispensed with, and J. H. Burlen declared ananimously elected. In the same way John Larkin Imously elected. In the same way John Lirkin was chosen Third Assistant.

On motion, the ten Fire Wardens were apportioned among the original Five Wards of the clay and after being designated by the Companion.

Perrigo. The election concluded, the Chief Engineer elect, and one or two of the Assistants, were mounted upon the large engine of Ocean Company No. 5, and drawn by two or three hundred members of the different Companies, with a band of music at their head, made a triumphal tour through the streets. In the evening, the Companies made merry at their respective Houses, the Engineers elect contributing the cheer. With the exception of the slight dissatisfactorily and harmoniously. SENATE.—Mr. Wade recapitulated the circumstances attending the formation of the Topeka Constitution. Contending for its legality, the President, he said, had denounced the tramers of this Constitution as rebels; if so, there were many more in Kansas. He stood there as their champion. rnampion.

If they were rebels so were the majority of the House, so was he; Gen. Cass was a traitor

the House, so was he; Gen. Case was a traitor for presenting that constitution to the Senate. It seemed that everybody who could not submit to be trampled on by border rufflans, are to be demounced as traitors. If this thing be continued, said he, there will be civil war. Mr. Wade also said, you can no more force a State into this Union, with the constitution not the choice of its nearly than support than your contract only of of its people, than you can force a State out of the Union. Both doctrines are revolting and distasteful to the American people. What has been said about an enabling act deceives nobody.<sup>1</sup> He, Wade, would not admit the necessity of an emabling act; the people will settle the matter in three days if permitted. Let the peo-ple choose their own constitution, and in one hour there will be necessity covers.

nour there will be peace. The opposite course will lead God only knows where.

Mr. Mason then spoke. He traced at great length the progressive aggressions on slavery from the Revolution till the Dred Scott decision. on alluding to the latter he quoted Chief Justice Marshall, who once said the greatest curse an angry God could leave to an erring people was a dependent judiciary, and yot, said Mr. Mason, the Senator from N. Y. talks of re-organizing the Courts so as to make them sectional, and subservient to the fluctuations of prolifical particulars. Courts so as to make them sectional, and subservient to the fluctuations of political parties.

Mr. Seward replied that he had been engaged in preparing a measure to organize the Supreme and Circuit Courts in such a way as to recognize the representation of the several States, so as to secure the better administration of justice and greater dispatch of business; when matured he would bring it in. It will be conservative in character, and at the same time just. He added that he hoped the principles of the Court would be in conformity with the Constitution of the U.S., and with the principles of humanity and justice.

The debate was continued at great length, when the Senate adjourned.

A Mirror for Democrats—What the South thinks of Mechanics and Work ing Men.

On Friday last, the News, which is the ac-HAMMOND, the News entertains, apparently, great | tered, with a sufficiency of lumber, and grass respect; for those of Gov. Sawand, none at all. In other words, the sympathies and instincts of the News, as a loyal Administration organ, all quarter. In addition to the above advantages, lead it to affinate with the advocates of BLAYE Labor, and against the champions of Fare border on the great pine regions of the North,

That our readers may know what sort of doctrines are new set up as Democratic, by the leaders and presses which assume to guide and control the Democratic Party, we invite attention to the subjoined extracts from the same speech of Gov. HARROND's which the News so highly approves. Our readers may therein disgover the sort of estimation in which the Aristoeratic leaders of Southern Democracy (I) hold the MECHANICS and LARGEING men of the North, and the "horder of semi-barbarian emigrants" who are filling up the broad and fertile plains of the West. They may, too, by the help of this stop that vote on Lecompton, nor all the Callight, arrive at a realizing sense of the kind of " Democracy," of which the Federal Administration is the embodiment and the News the fitting organ. Read these extracts :

ting organ. Read these extracts:

"In all social systems there must be a class to do the mean duties, to perform the drudgery of life. That is, a class requiring but a low order of intellect and but little skill. Its requisites are vigor, docility, fidelity. Such a class you must have, or you would not have that other class which leads progress, refinement, and circlisation. It constitutes the very mud-sills of society and of political government; and you might as well attempt to build a house in the sir, as to build either the one or the other, except on the mud-sills. Fortunately for the South, she found a race adapted to that purpose to her hand are accompanied to that purpose to her hand the climate to accove all her purposes. We use them for the purpose, and call them slaves. We are old-lashioned at the South yet; it is a word discarded now by ears polite; but I will not characterize that class at the North with that term; but you have it; it is there; it is a series of the series of the class at the content of the class at the class of the content of the class at the class of the content of the class at the class of the class that term; but you have it; it is there; it is part they took in the campaign." everywhere; it is eternal.

The Senator from New York said yesterday

that the whole world had abolished Slavery.

Ay, the name but not the thing; and all the
powers of the earth cannot abolishit. Godonty
can do it, when he repeals the flat, "the poer can do it, when he repeats the flat, "the poor ye siways have with you;" for the man who lives by bis daily labor, and scarcely lives at that, and who has to put his whole labor in the market, and take the best he can get for it, in short, your whole class of manual laborers and operayour whole class of manual laborers and opera-tives, as you call thum, are claves. The differ-ence between us is, that our slaves are hired for life, and well componented; there is no starvation, no begging, no want of employment, among our people, and not too much employment either.— Yours are hired by the day, not cared for, and sentily componented, which may be proved in Yours are hired by the day, not cases to a and sensity compensated, which may be proved in the most deplorable manner, at any hour, in any street in any of your larger towns. Why, Str, your must more beggars in one day, in any single attent in the city of New York, than you would meet in a lifetime in the whole South. Our slaves are black, of another, interior race. The status in which we have placed them is an elevation. They are slovated from the condition in which God first created them, by being made our slaves. None of that race on the whole face of the globe can be compared with the slaves of the South, and they know it. They are happy, content, and unaspiring, and utterly incapable, from intellectual degradation, ever to give us any trouble by their aspirations.

Your slaves are white, of your own race; you are brothers of one blood. They are your equals

in natural endowment of intellect, and they feel galled by their degradation. Our slaves do not you well with the government of Great Britain, the postage to do you give them no political power. Yours do you, and being the majority, they are the dopositories of all your political power. If they know the tremendous secret, that the believed in the United States upon letters addressed to Liberia wia England, after the 1st of April next, will be 38 cents the single rate of April next of the States, on this provisions, to be binding on all insurance companies, and they feel april next of the United States, on the single rate of the States, on the States, on the section of 1850, in its provisions, to be binding on all insurance companies.

Letters from Liberta via England, after the 1st of the United States, on the section of 1850, in its provisions, to be binding on all insurance companies.

Letters from Liberta via England, after the 1st of the United States, on the section of 1 are brothers of one bleed. They are your equals in natural endowment of intellect, and they feel lecturers or agitators North, to teach these poo-ple this, to aid and assist in combining, and to lead them? You say, send them North. There lead thom? You say, send them North. There is no need of that. They are coming here. They are thundering at our door for homesteads of one hundred and sixty acres of land for nothing, and Southern Souators are supporting it.—Nay, they are assembling, as I have said, with arms in their hands, and demanding work at \$1,000 a year and six hours a day. Have you heard that the ghost of Mendoza is stalking in the streets of your big cities; that the inquisition is at hand? There is alloat a furful rumor that there have been consultations for vigilance committees. You your big cities; that the inquisition is at made? There is alloat a fearful rumor that there have been consultations for vigilance committees. You know what that means already.—Transions and temporary causes have thus far been your preservation. The great Wost has been open to your surplus population, and your hordes of semi-barman emigrants, who are crowding in year by year. They make a great movement, and you year. They make a great movement, and you call it progress. Whither? It is progress, but it is progress. Whither? It is no carry for us. One hundred and fitty millions of dollars of our money passes annually through your hands. Much of it sticks; all of it assists to keep your machinery together and in motion. Suppose we were to discharge you; suppose we were to discharge you; suppose we should consign you to anarchy and poverty."

Gentlemen:—I have received your letter of the 10th lost, communicating to me the kind expression of the approval, by my German Republican irlends in Milinaukee, of my conduct in the late affray on the floor of Congress, occasionated by the ruffially assault upon Mr. Grow of Pennsylvanis. Under every ordinary circumstances there can be nothing more gratifying to one acting in a representative capacity, than the new surance of the approval of his constituents. It not only cheers and encourages him in the general discharge of his official duties, but affords a powerful incentive to a faithful performance of the duty which each hour may bring. But expecially is the assurance of such approval peculiarly gratifying, when in order to defend the iright of a constituency to be heard upon squal right of a constituency to be heard upon squal right of a constituency to be heard upon squal right of a constituency to be heard upon squal terms with others in the halls of legislation, it terms with others in the halls of legislation, it and effects. The receivers have given ball in \$150,000, for the distribul discharge of their due. narly gratifying, when in order to defend the right of a constituency to be heard upon equal terms with others in the halls of legislation, it becomes necessary to meet physical aggression with physical resistance. It is most humiliating to every friend of free discussion, that occasion should ever arise for such necessity, especially in the halls of our legislation. Such affraya are but the outcrop of that barbarism, which in the form of slavery, is so flercely contending with the civilization of the age—the outward when the contend of the law of brute features and the contend of the law of brute features.

Correspondence of the Bentinel Gevernment Lands in Wisconsin. Madison, March 12, '68.

Mr. EDITOR:-I have noticed for some time pest, in the various papers of the State, the opinion and assertion that there would be, the coming season, a very large emigration to Wisconsin, and as the object of such emigrants, in the majority of cases, will be to obtain good and oheap lands, it may be well to give notice through the Sentines, that there is yet plenty o Government lands, vacant, in the Northern portions of Adams and Juneau Counties. The lands in those Counties have been withheld from market for some time past, by reason of the "Railroad Grant." Consequently they have not been taken up, or settled upon, but will again be subject to entry from and after the 5th day of April next. Those wishing to examine that portion of the State will find New Lisbon the most convenient point from which to make examinations or Friday last, the News, which is the according to make examination of the less time of the above mentioned counties. Executive Office, Madison, To the Honorable, the Assembly :

To the Honerable, the Assembly:

A bill, entitled "an act to incorporate the Lake Michigan transit company," has been presented to me for my approval. The objects of this bill are of a very important, character, and an incorporated company, of the kind proposed, is a matter of as much necessity, as any ever passed upon by this legislature. So important is it, that the interests of the stockholders and of the public, should be guarded and protected with great particularity. The bill creates a corporation of vest moneyed power, and necessarily so, involving most important interests. In poration of vest monoyed power, and necessarily so, involving most important laterests. In passing upon it, I must now, as I have done in other messages, upon similar subjects, call the attention of the Legislature to article 11, title "corporotions," in the constitution of this State. This is a corporation without banking powers or privileges, within the menning of the constitution. It is one of that class that should be formed under general laws, it practicable. If in the judgment of the Legislature, the objects of the corporation onnot be attained under general laws, the Legislature should say, so in the bill, as was done by section 14 of the act granting AMEN TO REAL STATE IN THE PRINCE STATE IN THE Union, as its turn comes to speak, will say the Legislature should say so in the bill as was done by section 14 of the act granting the Union, as its turn comes to speak, will say the Legislature should say so in the bill as was done by section 14 of the act granting the Union, as its turn comes to speak, will say the Union, as its turn comes to speak, will say the Union, as its turn comes to speak, will say the Union, as its turn comes to speak, will say the Union, as its turn comes to speak, will say the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union, as its turn comes to speak, will say turn to the Union. March, 11, 1858. To the Honorable, the Assembly ! I have had presented for my approval, a bill entitled tan act to incorporate the Farmer's mu-tual fire insurance company of Calumet county. tual fire insurance company of Calumet county.

I return it to the Assembly where it originated, with my objections. It is within the rule, I feel compelled to adopt, in regard to all, corporations having no banking powers or privileges, probibited by the constitution, except where, in the judgment of the legislature, the objects cannot be attained by general laws. In other States the objects of such bills, have been installed by general laws, and may be so here, even if the law now on the statete book is found inadequate. An act ontitled "an act to provide for the incorporation of insurance companies," approved Fobrusty, 9, 1850, may be "found" on page 186 of the general laws of that year. It was passed to avoid the necessity of constant application to the legislature for special charters. For such companies. If the objects of the bill are desirable in their character, they must be provided for under general laws, or under a general laws for that purpose; or, if they cannot be attained under such general laws, the judgments of the legislature should be expressed in the bill itself, that those objects cannot be so attained. The people expect that the system of local legislation, in which the legislature has so freely indulged for the last ton years, at so enormous an expense to the State, and in so direct opposition to the less tintent of the constitution, should now cease, and that a new and better system should be adopted. The great mass of local legislation, which at every successive assists of the legislature, has occupied its time and attontion, is a serious injury to the State, and is a cause of general public complaint. It occupies too much of the time, of each session, which should be devoted to general laws, of great public importance, for protecting the rights and best interests of the people. I cannot approve this bill, and for the reasons above stated, return it to the Assembly, where it originated.

The progress of this Corporation has been stake and uninterrupted through seasons of financial semantine and stome, or periods eventful in or exempt from sweeping configgrations and maritime disaster. Being long seath-lished on a cash basis, the troubles of the credit system affect us in no material particular. During "hard times" the security of reliable Insurance is an imperative shart—the ability of property owners to sustain loss being then much lessened.

Agencies in all the principal cities and towns throughout the Basis, Foliates issued without delay, by any of the duly authorised agents of the Company.

Dask Manha: —The reputation of the Medical Discretey, in curing all the dof numers, is so well established, by the unanimous roice of all who have ever used it, that I need not say anything on the schoot, as the most skilling hydroicens and the most carcialDruggistis the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a fall knowledge of its curative powers, in reining all, and curing most of those diseases to which you are unfortunately so lable. That most exeruciating disease to an affectionate mother NUESING SORE MOUTH, is cured as if by a miracle; your own temper is restored.

NURSING NUMB MUDGE MUDGES is restored to its natural sweetess, and your babe from short and frested maps to calm and sweet slembers; and the Medical Discovery becomes a fountain of obssings to yet husband and household.
